Galguard® Tetra

A CLEAN PRESERVATIVE SYSTEM DESIGNED FOR TODAY'S MARKET

MOISTURIZER WITH 1.3% GALGUARD TETRA AT pH 5.4

SHAMPOO WITH 1.3% GALGUARD TETRA AT pH 6.0

CHALLENGE TESTS Galguard Tetra was tested using the CTFA protocol in both leave-on and rinse-off formulations. Our preservative technology uses lipidated glycolates, capryloyl glycolate and undecylenoyl glycolate, which are multi-functional cosmetic ingredients made by our unique patented green process.

NOTE 1.3% Galguard Tetra on weight basis is 1% Galguard Tetra on active basis
