

HyaClear® 7

SUPERCHARGED HYDRATION

INTENSE
MOISTURIZATION
FOR HEALTHIER
LOOKING SKIN
& HAIR

INCI WATER, 1,2-HEXANEDIOL, SODIUM HYALURONATE

- HyaClear® 7 is an optimized ratio of 7 unique molecular weights of sodium hyaluronate (range of 3,000 – 2,300,000 Da MW) for maximum moisturization:
 - Medium and High MWs create a protective film to reduce water loss
 - Lower MWs ensure moisturization in deeper layers of the skin
- With continuous application, HyaClear® 7 can stimulate skin to **produce more hyaluronic acid** for deeper moisturization and younger looking skin
- Increases **hair's moisture retention**

 **TRI-K**
A MEMBER OF THE GALAXY GROUP
